2. Responsible resource management: we will put measures in place to reduce our consumption of natural resources, minimise waste and promote the circular economy in our operations.
3. Climate action: we will reduce our greenhouse gas emissions and seek sources of renewable energy to minimise our environmental impact.
4. Diversity and inclusion: we will foster a diverse, inclusive environment within our organisation, promoting equal opportunities for everyone and rejecting any kind of discrimination.
5. Social responsibility: we will collaborate with local communities to support projects that benefit society, such as education, access to healthcare and community development.

7. Transparency and accountability: we will report regularly about our progress with sustainability, sharing our achievements and challenges in a transparent way.

This commitment is not simply a statement of intent. It also involves a specific action plan that will guide our decisions and efforts in the long term. We acknowledge that the commitment to sustainability is continuous and requires constant effort. It is our desire to collaborate with other organisations, partners and key players to achieve a significant collective impact on reaching the SDGs..

We would like to thank you for your support in this venture and we hope to be able to share our progress with you in the future. Together we can build a more sustainable, resilient world.

Yours faithfully
